**DAY FOR LIFE** - Pope Francis tells us that being a protector of life is about "protecting all creation, the beauty of the created world... It means respecting each of God's creatures and respecting the environment in which we live". The Pope speaks of "protecting young people, showing loving concern for each and every person, especially children, the elderly, those in need, who are often the last we think about" He emphasises the importance of the family. "Husbands and wives first protect one another, and then as parents, they care for their children and children themselves, in time, protect their parents". And of caring for society by "building sincere friendships in which we protect one another in trust, respect and goodness. In the end, everything has been entrusted to our protection, and all of us a responsible for it."
